## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Applicant's particular method of a first relative tab stop not representing an absolute location on a page would not have been obvious over, nor would have been fairly suggested by the closest prior art of record.

The closest prior art of record, Microsoft Visual Basic 5.0, in view of Microsoft Word 2000, in further view of Kleinman disclose a method of aligning items within an electronic document, each item having a relative tab stop indication, the method comprising the steps of *determining the relative tab indication of the first item* (see Basic, under heading: Understanding the Coordinate System, pgs. 557-58 → each object has a coordinate position) *and positioning the first item within the document* (see Basic, under heading: Displaying Print Output at a Specific Location, pg 547 → display of text on a form or picture box at a specific location), and positioning further items within the document in accordance with *the position of each previously positioned item associated with the same relative tab stop as the further item*.

However, the closest prior art of record, does not explicitly teach or suggest a first relative tab stop not representing an absolute location on an electronic page. The closest prior art of record necessitates that the first relative tab stop be a fixed

benchmark position by which further items are relationally positioned from. Therefore, the closest prior art fails to anticipate or render Applicant's limitation above obvious.

### ***Conclusion***

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
